

Bio-D Floor Degreaser

Environmentally friendly emulsifying degreasant

DESCRIPTION AND USES

Bio-D is a high performance, heavy duty emulsifying degreaser for floors and machinery that replaces traditional solvent-based products. It is specially formulated to remove oil and grease from concrete and other masonry type floors. Bio-D contains no solvents or other chemicals that are dangerous for the environment.

PRODUCTS

F230013 - 1.3 gallon

F230014 - 6.5 gallon

PACKAGING

1.3 and 6.5 gallon jugs

APPEARANCE

Clear liquid

APPLICATION

Brush in undiluted Bio-D with a stiff broom, allowing at least 15 minutes for penetration. A little water may be added to the floor at this stage to aid spreading. Too much will reduce the effectiveness of Bio-D. Then loosen deposits with a stiff broom or mechanical scrubber. Rinse with clean cold water preferably while continuing to scrub. If further applications are required, the floor should be reasonably dry before application.

COVERAGE

Varies widely according to conditions. Assume 150 sq. ft. per 1.3 gallons may be used as a guide when removing heavy contamination.

PHYSICAL PROPERTIES

Practical Coverage	150 sq. ft. per 1.3 gallons; 750 sq. ft. per 6.5 gallons
SHELF LIFE	2 years
FLASHPOINT	–
WARNING	FOR INDUSTRIAL AND COMMERCIAL USE ONLY. KEEP OUT OF REACH OF CHILDREN. REFER TO MATERIALSAFETY DATA SHEET (MSDS) AND LABR FOR ADDITIONAL SAFETY INFORMATION.
