

COMMERCIAL KITCHEN SAFETY MATTING

AREAS OF USE

- Food Processing Areas and Production Areas
- Commercial Kitchens
- Wash Down Areas

DESCRIPTION

Heavy-duty, animal fat-resistant matting designed to keep food processing areas safe. Oils, acids and animal fats are no match for Commercial Kitchen Safety Matting, a specialized matting solution designed to keep food processing environments free from slippery floors, as well as relieving employees from fatigue. The mat's extra-wide open grid means waste and other spillages fall straight through, keeping the standing area free from hazardous material. Made from a single piece of heavy-duty non-porous PVC, the matting is easy to handle and clean with a high pressure hose, making maintenance a breeze.

FEATURES

Diamond Cut Pattern
Surface

Two-layer construction
with extra wide grid

Made from non-porous
plasticised PVC

*Anti-fungal and
anti-bacterial additives*

Comes in 33' rolls

BENEFITS

Certified Slip Resistant
(ASTM 1677: 0.8/0/7)

Excellent Drainage

Easy to Clean

Excellent hygiene, easy
to clean

Quick to Install

Standard Sizes:

Product	Commercial Kitchen Matting
Height	5/8" (15mm)
Standard roll options	33' x 2' (10 x 0.6m)
	33' x 3' (10 x 0.91m)
	33' x 4' (10 x 1.22m)
Weight	0.88 lb/sq.ft (4.3 kg/m2)

Tolerances:

	Height (+/- 0.05")	Length (0+1.0')	Width (+/- 1cm)
Commercial Kitchen Matting	5/8"	33'	2' 3' 4'

All dimensions are nominal

Technical information:

Acoustic	Excellent sound absorption
Height	Resistant to most acids, alkalines and oils.
Standard roll options	Made from flexible animal fat resistant DINP plasticised Polyvinyl Chloride (PVC) with Steritouch additives.
Height	Made from non-porous PVC that's naturally resistant to bacteria growth
Reversion	Thermoplastic shrinkage can result in size reductions up to 2%. This may be accelerated in hot environments.
Slip resistance	ASTM F 1677 - Dry/Wet: 0.8/0.7 DIN 51130: R11, V10
Thermal	Designed to function at temperatures from -9°F and up to +140°F. Slight size variation may occur at temperature extremes.
UV light	Resistant to PVC degradation
Weight	Three years.

Installation:

Commercial Kitchen Matting's one-piece construction means installation is simple:

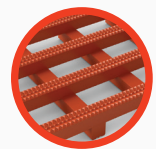

- Comes in 33' rolls
- Loose lay
- Contours to uneven surfaces

Cleaning:

Keeping Commercial Kitchen Matting looking good is easy:

- One piece covering
- Easy to handle
- Roll or lift to clean
- Easy to clean with a high pressure hose

Colors:

Terracotta
